DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13 and 16-20, drawn to a process for making an OXO alcohol.

Group II, claim(s) 14 and 21, drawn to a modified primary OXO alcohol compound.

Group III, claim(s) 15, drawn to a surfactant composition.

Group IV, claim(s) 22-24, drawn to a detergent composition.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature of Group I is a process of separating and dehydrogenating a hydrocarbon feed to make an OXO alcohol, which is not shared with Groups II-IV. The special technical feature of Group II is a product by process feature that results in a specific modified OXO alcohol, which is not shared with Groups I and III-IV. The special technical feature of Group III is a product by process feature that results in a cleaning product containing a surfactant and an adjunct ingredient, which is not shared with Groups I-II and IV. The special technical feature of Group IV is a detergent composition containing specific surfactants, which is not shared with Groups I-III.

Art Unit: 1751

3. A telephone call was made to Richard Echler on March 18, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Mruk whose telephone number is (571) 272-1321. The examiner can normally be reached on Monday-Thursday from 7:00 AM to 5:30 PM.
